DEMOCRATIC COMMITTEE DISCUSSES FINANCE

Chicago, Aug. 9 .- Ways and means of financing the Democratic national campaign were discussed at length to lay at a meeting of Chairman Mack national committee; Gov Charles N. Haskell of Oklahoma, treas-

Charles N. Haskell of Oklahoma, treasurer of the committee; Col. Moses C. Wetmore of St. Louis, chairman of the finance committee, and Millard F. Duniap of Illinois, former treasurer of the national committee.

No definite decision was reached and the question of raising a fund of sufficient proportions to maintain an effective three months' campaign will be brought up for solution at a meeting of the various heads of the sub-committee tomorrow.

Neither Gov. Haskell nor Col. Wetmore has formed any definite plan for raising a campaign fund, although both are confident that the committee will not lack funds to meet all legitimate expenses of a lively presidential fight. While the suggestion has been made that a fund of half a million dollars would be sought, both Gov. Haskell and Col. Wetmore declared that no definite sum had been settled upon. Haskell said: Haskell said:
"I have every confidence that the committee will obtain all the funds needed to wage a hard fight for Mr. Bryan, though as yet no plan has been determined upon. I have made no appeals for money, but have already received \$19,000, which came unsolicited. No definite sum has been fixed for a fund, which in our party must be collected from the plain people."

VERY SAD CASE OF GEN. WELL AND WIFE

tic case of Gen. D. K. Wardwell, a veteran of the Mexican and Civil wars, and his wife, who is a leper, is in a fair way of being disposed of by the territorial officials, and it is possible that the devotion of the husband will prevail and he be permitted to remain by his afflicted wife.

It is proposed to isolate the couple near this place and keep them under the care and treatment of the county officials. The fact that the form of leprosy from which the woman is suffering is not communicated by ordinary contact makes this solution of the problem possible.

contact makes this solution of the problem possible.

The federal government was appealed to by the local officials, but it has replied to the board of supervisors that there is no law under which the deportation of Mrs. Wardwell to the leper colony of Molokal can be effected, thus leaving the tensions. leaving the territorial government to

leaving the territorial government to its own resources.

Gov. Kibbey has wired the county officials that the territorial superintendent of health has been ordered to Tombstone to investigate the case.

Gen. Wardwell's anxiety to save his wife from deportation may influence the authorities in deciding to provide for the isolation of the couple.

Mrs. Wardwell has a brother zerving a 10-year sentence in the Yuma penitentiary for murder, and Gov. Kibbey has been petitioned to grant him a pardon under condition that he take care of his sister.

Mr. Wardwell, who is 86 years of age, is suffering from a cancer. This adds to the pathos of the case.

A few weeks ago Mrs. Wardwell was a patient at the county hospital in Los Augeles, while her husband was an inmate of the soldiers' home near that city.

In order to thwart an attempt to separate them and that he might care for his wife, the old veteran had her stealthily removed to this place, her former home.

The county authorities at once took chagge of the couple and have been puzzled since to find a way to care for them.

The title of general was won by Mr. Wardwell while serving in the Mexican war against Maximillan.

The assailants, from the rocks above, poured down a five directly into the windows. Practically every window in the train was broken and shots struck all parts of the engine and cab. Eight negroes were arrested this afternoon, Gov. Comer held a hurried conference with Lieut.-Col. Hubbard, commanding the militia, this morning and another company was hurried to Blockton. It is quiet there tonight.

SHAH OF PERSIA.

Practically a Prisoner Held for Ran-

som Which He Hasn't Price Of. St. Petersburg, Aug. 9.—Special dispatches received here from Teheran give a tragic-comic description of the position of the shah of Persia, who is virtually a prisoner in the hands of wild tribesmen summoned to Teheran to protect the throne against the revolutionists, but who have become a greater menage to the monarch than lutionists, but who have become a greater menace to the monarch than his other foes. The tribesmen are extravagant in their demands for money, which the shah is unable to grant and they threaten to destroy the palace and pillage Teheran. The \$250,000 secured from the Russian bank recently as a loan on the crown jewels of Persia already is exhausted. Gen. Liakhoff's Cossacks are unable to make any headway against the tribesmen, who have refused to permit the shah to leave the camp at Bade Shak for Saltanabad, where the harem is now staying. FIRST AID TO INJURED.

Judge A. B. Parker Brings it to Vic-

San Luis Obispo, Cal., Aug. 8.—Judge Alton B. Parker of New York brought first aid yesterday afternoon in what was almost a fatal runaway.

While A. U. Mills, wife and daughter of this city and David Oliver, a school director of San Francisco, and daughter, were riding in a surrey, the team became frightened at an approaching automobile and ran away. The surrey was overturned and Mr. Oliver, and daughter, and Miss Mills were caught underneath Mr. atd Mrs. Mills were thrown clear of the tangle, but Mr. Mills grabbed the reins and after the surrey had been dragged 100 yards with its pinioned captives, succeeded in checking the runaway team just as Judge Parker and Delancey Nicoli, also of New York, whirled up the road in an automobile.

Almost before the machine was stopped Judge Parker leaped from the tonneau and was tugging with Mr. Mills at the horses bits. The animals were brought to a standstill and the three occupants of the wrecked surrey were liberated, bruised and lacerated.

All were put in Judge Parker's automobile and taken to the Mills home. tim of a Runawawy.

Don't Follow Fads in Food

Wheat is the food of the ages. Nothing can take its place. In hot weather it is doubly important. It gives the maximum nourishment with the minimum heat. Mapl-Flake is, beyond all comparison, the food for summer mornings.

One can eat meat for breakfast in winter, because one needs the heat is so fierce, that the food

But the summer breakfast should be wheat and fruit. We must eat sparingly of heat-producing elements now

No other cereal, in these days, can take the place of wheat. And no other wheat is so deliciousso well-prepared—as the wheat in

We cook this wheat for six hours-cook it in pure maple syrup. Then we cure it for days, so that it partly digests.

Then we flake each berry as thin as paper, and toast it in ovens heated to 400 degrees.

The flake is so thin, and the particles are separated so the digestive juices can get to them.

The result is a food that's all food, because it all digests.

A flaked food can be made in one-fourth of this time, and that saving of time saves money.

But a short-process food is only partly digestible. The other part is wasted. Worse than that, it ferments and irritates the stomach

So we spend 96 hours in preparing this food-to give you a food that's all nourishment.

Mapl-Flake

The Food with the Maple Flavor

We are the largest buyers of Vermont Maple Syrup, and it all goes into Mapl-Flake. That's how we get that delicious flavor that children like so well.

If you have fruit for breakfast, mix it with the Mapl-Flake. Fruit adds another deliciousness. This is the way to urge children to eat what is best for them. To eat little meat and much whole wheat. Give them the wheat with the maple flavor and they'll ask to be served again.

Please begin today. Don't lose these ideal break-

views with the state department at Washington, regarding Liberia, based upon the representations made to both the German and American governments by the special legation from Liberia, consisting of Messrs Gibson, Doersen and Dunbar, which recently visited Washington and Berlin.

The Liberian envoys tonight came here to consult with the officials respecting an international agreement that might prevent the French ivory coast colonists from infringing upon Liberian territory and Great Britain which also is Liberia's neighbor, in Sierra Leone, from threatening the little republic. The conduct of British agents in administering the British agents in administering the customs receipts in the interest of the bondholders, appear to have caused much dissatisfaction and Liberia asked Germany for aid. Owing to there being a considerable German trade with Liberia, the foreign office listened favorably to the representations of the envoys and has formulated the
